# KUEHLMANN'S RESIGNATION WILL NOT ALTER COURSE OF HUN MILITARISM

## SUCCESSOR LIKELY TO BE ONE WHO STANDS EVEN CLOSER TO AIMS OF THE MILITARISTIC GROUP

## ARMY MORALE NEEDS STRENGTH

**Copenhagen, July 10.—The resignation of Foreign Minister Kuehlmann has been accepted, according to official announcement from Berlin received here today. Other dispatches said that Admiral von Hintze, German minister to Norway, would probably succeed Kuehlmann.**

**By Ed. L. Keen**

**London, July 10.—The resignation of Foreign Minister Kuehlmann, if finally confirmed, is interpreted as a pan-German victory. This view is strengthened by the report that Admiral von Hintze will succeed Kuehlmann as he is not only close to the Kaiser but is friend and supporter of von Tirpitz and Admiral Scroeder, leaders of the Belgian annexationists. It may be considered a pan-German victory but he will not be quite so dangerous for the Allies as one of the Kuehlmann type, who was master of German plans of conquest under the trickery of a peace offensive which gave Allied pacifists debating material.**

**London newspapers dwelt at length on von Hintze's history. He is generally characterized as the most notorious personage of intrigue in the German diplomatic service. Hintze's history in China brought him international notoriety. His behavior there was so scandalous that he was recalled and sent to Mexico. He was German minister in the latter country during Huerta's regime. He was implicated in the plot to furnish Huerta with German guns and ammunition during the United States embargo. When war broke out von Hintze returned to Germany disguised as an Englishman, traveling through the United States, England and Holland. He was again sent to China as minister in 1915. After China broke off relations with Germany Hintze was sent to Christiana where he was implicated in the plot there last summer to smuggle bombs to America to blow up Allied merchantmen.**

**By Wm. Phillip Simms**

**With The British Army In France, July 10.—"Discipline, which is the keynote of our army, is seriously shaken," General von Marwitz, commander of the German second army which holds the line astride the Somme east of Amiens thus declared in his most recent order of the day. "Insist upon downing the unruly spirits. I cannot permit commanders to take upon themselves the shielding of under officers or men guilty of a breach of discipline, or the inflicting on those guilty a mild form of punishment," he declared. A few days ago von Marwitz issued an order which read this way, "Cases of soldiers openly refusing to obey orders are increasing to an alarming extent."**

# PERSHING LOOKS FOR DRIVE ON THE AMERICAN FRONT IN THE NEAR FUTURE

**Washington, July 10.—"Excesive troop movements" continue in the enemy's area before American positions in France, General Pershing reported in his communique of July 9, just received. This indication of the gathering of the Germans for a storming against the Americans was further substantiated by increased aerial activity during the last week. On July 5 and 6, Pershing reported, "enemy airplanes flew over the American lines in great numbers in the Chateau-Thierry region."**

### YANK AVIATOR ESCAPES

**Paris, July 10.—Everett F. Buckley, American aviator who was captured near Verdun ten months' ago, has escaped into Switzerland after five unsuccessful atempts, according to information received here today.**

# HAIG REPORTS HUN BIG GUNS ACTIVE

**London, July 10.—Following the repulse of enemy attacks south of the Somme last night German artillery early today began an active bombardment along a ten mile front between Villers Brentenneaux and an Ancre, Field Marshal Haig reported. Early this morning the enemy artillery fire became active between Villers Bretenneaux and the Ancre, the statement said. "We conducted successfully every operation in the Nieppe forest and in Merris in Flanders a[illegible] advanced our lines a short distance. Captured prisoners and machine guns."**

**Paris, July 10.—Artillery fighting in some sectors of the Picardy and Marne front is reported by the French war office today. North of Montdidier and south of the Aisne in the region of the Chevigney farm there was artillery fighting, the communique said. French troops took prisoners in the Champaigne region. Seven German airplanes were brought down and two big balloons were shot down in flames on July 8.**

### ITALIANS PRESS FORWARD IN ALBANIA

By United Preses

**Rome, July 10—Italian forces in Albania are still pressing forward on a 40 mile front between the middle Osum river and the Adriatic the Italian war office announced today. They have reached the west bank of the lower and middle Somenia river an advance of 15 miles since Sunday. Progress continued alongsde the Osum.**

# UNDERSTANDING OF RESPONSIBILITY WILL SELL W.S.S.

The War Savings Stamp campaign in Clearefild borough is being conducted by a number of sub-committees working under a general committee. By this means the drive is trying to get hold of every possible avenue of approach to Clearfield citizens—to get in touch with absoultely everyone. It is felt that really the only thing necessary to make people buy stamps is that they should be made to appreciate the situation both at home and abroad.

One committee under G. M. Rosser has charge of the formation of war-savings societies, some account of which was recently given in these columns.

Another branch under S. F. McClure and A. D. Bigler is organizing systematic soliciting in the industrial plants and mines. The Harbison-Waler Refractories company represented by Mr. McClure, has been notably successful in this work at its various plants both here and elsewhere, and the subscriptions obtained by the local plants of this one concern have been a material help to Clearfield in bringing up its total. Many of the other works however, are now swinging raipdly into line on this drive and may yet force the Harbison-Walker people to hustle to hold first place by the end of the year.

Among others that have reported during the last few days are the Banta Refrigerator Works and the Paterson Clay Products mines. In the former pledges amounting to sixteen hundred and ninety dollars were made, a very fine showing. In the latter eleven men came across with a total of a thousand dollars to help fix up the map of Germany.

Clearfield still has a long way to go to reach her quota, but, as reports like these come in, the goal gets nearer. When we think of our quota and the long advance until we reach it we know that we must plunge into the work. We are getting ahead, however. If everyone comes through like the concerns mentioned above, we shall have enough and to spare.

The game figat which the New York Yankees have been putting up is an excelent testimonial to the abilities of Manager Miller Huggins.

A girl of righton, England, boasts that, since the war began, she has been engaged sixteen times, and has broken every engagement herself.

### HAGERTY MADE ADDRESS AT BLOOMINGTON

The Liberty Chorus escorted Wm A. Hagerty to Bloomington last evening where he gave one of his characteristic short, snappy patriotic addresses [illegible] the Lutheran church at that [illegible]. A small but attentive audience [illegible]d the visitors to the little village and a nice subscription to War Savings Stamps was taken. The Motor corps of the division of Four Minute Men were right on the job at seven oclock sharp and the start was made on time. The chorus aided by these patriotic men who freely and willingly donate the use of their cars, are making a big hit every place they go. The willingness of these men to forego their evening rest and pleasure to go out of town to entertain and help in the promotion of the war spirit is bring us plenty of praise.

# CONVENTION OF FIREMEN WILL BE SHORTER

## War Conditions Prompt Executive Commiitee to Cut Convention to 1 or 2 Days

## J. D. CONNELLY NEW SECRETARY

A meeting of the Executive Committee of the Central District Volunteer Firemen's Association was held at Firemans Hall in Houtzdale Tuesday afternoon. Those present were: President A. C. Allison and Amos Rumberger, of Houtzdale; J. F. Kephart, Philipsburg; Arthur W. Baird, Osceola; John E. Johnson, DuBois; C. H. Hoover, Bellwood; Robert Simcox, Patton, and J. C. Barclay, Clearfield, the entire membership of the Executive Committee. In addition thereto there were present:—John Kinney and Fred Sherkle, of Houtzdale, of Transportation Committee; Hon. Jos. E. Phillips and J. D. Connelly, of Clearfield, of the Resolutions Committee, and Messrs. J. A. Arnold and William Lewis of the local Committee.

The first business of the meeting was the election of a temporary successor to the late Secretary W. C. Langsford, of Houtzdale. J. D. Connelly, of Clearfield, was chosen for this position.

The purpose of the meeting was the selection of the date for the 1918 convention for the district. This matter was discussed at length and it was finally decided to select Thursday, August 22d, the convention and parade to be held the same day, eliminating the contests and other athletic features on account of war times and conditions.

The option was also given the local committee to add one day to the date if they so desire, and hold the convention or business session the first day and the parade the second as has been customary. This matter will be decided at once and the different organizations in the district notified.

The committee on resolutions presented the following report:

Resolution on death of W. C. Langsford of Houtzdale, Pa. Late Secretary of Central Pennsylvania District Volunteer Firemen's Association. Adopted by the Executive Committee at Houtzdale, Pa., July 9th, 1918.

Whereas, on June 15th, 1918 at 9.30 a. m., the death angel once again invaded the ranks of the Central Pennsylvania District Volunteer Firemen's Association and took therefrom one of its oldest, most enthusiastic, best-known, and most generaly respected members, the late William Charles Langsford, of Houtzdale; and

Whereas, Brother Langsford was long a valiant volunteer fireman and one of the moving spirits in the organization of our District Association and was among the very earliest Presidents of the organization, while he had been regularly and unanimously chosen annually for many years to fill the exacting position of Secretary of the Association. Much of the success of our organization has been due in large measure to his untiring zeal, wise counsel, absolute fairness and hard labors during the passing years. His death, therefore, was not alone a serious blow to our Association but is also a distinct personal loss to each and every member thereof, who admired our amiable, enthusiastic Secretary for his sterling worth as a gentleman, a fireman and a loyal friend.

Therefore, Be It Resolved: That we, the members of the Executive Committee of the Central Pennsylvania District Volunteer Firemen's Association, as a testimonial of the respect and esteem in which we held our departed Brother, direct that the Charter of our Association be draped for a period of thirty days, that this resolution be placed upon our minutes, given to the press for publication, and a copy presented to the family of our deceased Brother.

Further, that we ask the President of the District Association to designate a suitable person or Commitee to prepare a proper memorial and present same at the next meeting of the District Association in August of this year.

J. D. CONNELLY,
F. W. GREBE,
JOS. E. PHILLIPS,
Committe on Resolutions.

The resolutions were unanimously adopted and President Allison appointed John C. Barclay, Hon. Joseph E. Phillips and J. D. Connelly, of Clearfield, a committee to prepare a suitable memorial for report at the District Convention.

# WHEATLESS DAYS WILL SOON BE DISCONTINUED

## Supply of Beef and Wheat for Coming Year Will Result In Modifications of Rules

## VICTORY BREAD WILL STAY

Washington, July 8.—Relief for the United States from wheatless days is near. Relaxation of the voluntary wheatless programme of the Food Administration can be expected within the next two weeks.

The country probably will be asked to accept victory bread as its staple bread base, or a mixture of 80 per cent wheat flour and 20 per cent substitute. Our allies in Europe will continue using a mixed bread and it is the plan to keep the entire allied world on a similar basis, so far as may be possible. But the wheatless days will go.

The same conditions which cause the abandonment of the wheatless days have led the President to decide to veto the bill fixing the price of wheat at $2.40 a bushel at primary markets. The bill only reached the White House today and will be allowed to take its normal course through the Agricultural Department. The veto may reach Congress this week.

The beef needed for the armies at the front is from cattle garded as heavy exports. This is the same class of beef as is sold in hotels and nigh class restaurants. For this reason the hotels and restaurants were put on a conservation basis. On August 1 heavy cattle began coming into the market, and the supply promised at that time is adequate to the needs of the allied armies and the country. The restrictions on the use of beef will be removed.

The wheat crop this year is estimated at 900,000,000 bushels. It will meet the needs of this country and in addition will carry the allied nations until next April 1, possibly through 1919.

Guarantee of a price by the Government was for the purpose of stimulating wheat prodution this year. Both the Food Administration and the Secretary of Agriculture have pointed out to the President that any higher price fixed now, with the crop already made, could not possibly increase the production a single bushel.

The only excuse for price-fixing in the first place was to guarantee the farmer a sufficient return to encourage him to plant a larger acreage. The original guarantee was at $2 and brought an increase of 28.2 per cent. in the acreage.

### HE HOWLS ALL THE TIME

Complaint was made yesterday to Burgess Chase and Humane Officer Reiley regarding a howling dog which is confined in a barn on the West Side and annoys the neighbors daily and nightly by his mournful wailing.

The dog is said to be suffering from malnutrition due to his food rations having been cut down really below a minimum. The Burgess is asked to muzzle the howl and Officer Reiley to provide proper sustenance.

# U-BOAT ATTACKED LINER NEAR NORFOLK MONDAY

By United Press

**New York, July 10—German submarine activities have been resumed off the United States coast. An Atlantic liner here from Chile with 85 passengers and a cargo of 3500 pounds of nitro was attacked by a U-boat off Cape Henry Monday night. Two torpedoes were fired at the steamer but both missed by narrow margins. The attack took place 50 miles off the coast. Passengers said the submarine had probably been notified of the coming of the steamer with its valuable cargo and lay in wait for it. The first torpedo swished the side of the steamer. Immediately after an alarm was given and the passengers hurried to the deck when the second torpedo passed along side the steamer's bow. The liner followed a zig zag course the rest of the voyage.**

### AIR RAID ON CONSTANTINOPLE

Constantinople, via London, June 30.—Five enemy airplanes bombed Constantinople this morning, the Turkish war office announced. No damage was done.

# "MOLDY" WINGERT SAW THE SAWS; AND OFFICER CARLSON SAW "MOLDY"

We have heard of deep, designing, desperate vilyuns sawing their way through prison bars to liberty but we believe our old friend "Moldy" Wingert is about to acquire for himself the fame of being the first man in the history of Clearfield county to literally "saw" himself into jail.

Friday night last burglars gained entrance to Dufton's hardware store on Market street and very quickly helped themselves to a generous supply of hardware. The police department was notified and immediately got busy. Suspicion was directed toward "Moldy" and a boon companion or two and it was not long before tangible evidence came to hand which showed the officers they were on the right track.

Last evening Jack Heberling informed Officer Carlson that "Moldy" Wingert had offered to sell him six bran new cross cut saws for $5.00. The officer told Heberling to go ahead and make the deal and the latter saw the saw merchant and asked to see the saws. When "Moldy" saw that Heberling meant business and really wanted to see the saws he saw to it at once that the saws should be seen.

He had left the saws at Joe Marino's store in the Fourth ward and taking Heberling with him started down to see the saws. Officer Carlson trailed the saw merchant at a safe distance and waiting until "Moldy" and his prospective customer were seeing the saws Carlson stepped in and had a look on his own hook.

When Moldy saw the officer and saw he saw the saws he also saw that it was the calaboose for his'n, and commencing to saw the air with his hands he declared to goodness he never saw the saws until he saw a fellow coming out of the hardware store friday night with the saws on his back and he saw that there was a chance to get away with the saws before any person saw him and never dreaing there aws anything wrong with the proposition he saw a chance to dispose of the saws to his own personal gain and that was the tale of the saws.

Officer Carlson saw Moldy on a recent occasion offer a similar excuse when he saw he was caught with the goods at the time of his securing a quantity of "hardware" down at the Elk rooms, but could not see enough in his explaantion to prevent his being locked up and then promptly saw that the saw merchant and his saws saw the inside of the borough caliboose. He also saw a good chance fos Moldy sawing his way into the county jail and from thence to the rock pile at Rockview, Centre county, Pa.

# SIGNAL CORPS MAY MAN TELEGRAPH

By United Press

Washington, July 10—The United States Signal corps is compiling data on the telegraphic operations in this country including both private and leased wires. This activity led to the belief today that if President Wilson seizes the telegraph lines of the nation as a milirrgrgrmvolsiiia the nation as a military necessity the operation will be placed in the hands of the Signal corps. If this is done it will eliminate the objection of both the union men and many members of Congress against the conducting of the telegraph lines by Postmaster General Burleson.

### THE STOCK MARKET

New York, July 10- The stock market opened irregular today. United States Steel was from 107¼ to 107 up ⅜ to ½. Reading was off⅝ at 91½ and Anaconda was up at 68. Marine, preferred was up ¼ to 108⅛.

The market gained strength. The American Steel foundry made a new high for the movement at 70⅜. American can gained to 48⅞.

# COAL INVESTIGATORS DISCUSS POLICY

The committee charged with the "investigation" of socalled wasteful mines and other conditions surrounding coal production in this field which was scheduled to meet here today following the adjournment of its session of Friday last, assembled in the offices of the Operators' Association in the Kurtz building at 10 o'clock this morning. All the members of the committee were present and Judge Smith presided as chairman.

The entire session today was devoted to a discussion of matters of policy preparatory to a resumption of the hearing of testimony tomorrow.

John Cameron, the fuel administration's district representative for Pennsylvania, of Altoona, is in attendance at todays' meeting.

The committee will decide today as to whether their hearings shall be public or private and what newspaper representation, if any, will be allowed.

## DOING A JOB RIGHT

Many people do not understand or are inclined to forget that very little latitude or license is given to draft boards by which they can arbitrarily move a man forward into a classification which is unfair to him. The draft law has been framed in such a manner that every man has the right of appeal from the decision of the local board and for this reason there is about as much chance for a man not getting justice as there is for a camel to go through the eye of a needle. While the law has made it hard for a draft board to put a real class A2 or A4 man in Class 1, apparently it has made it relatively just as easy for a local board to let the bars down and put A1 and and A2 men in Class A4.

On review of many such classifications we have come to the opinion that the compliance or non-compliance with the rulings of the War Department depends entirely on two factors influencing the members of draft boards. One is, or rather was, a lack of conception of the broad terms of the draft whereby every man was to share equal and a failure to comprehend the fact that millions of men would ultimately be called into service, which in itself calls for the early induction of every man falling under the rulings. Another factor was the attitude described best by the old term "spineless" on the part of certain boards, the members of which early in the game began to seek the loopholes in order that no man would go unless the law positively said he must go. The flimsiest excuses were offered and accepted by these boards who were reluctant to do their full duty to their country. The patriotic board reasoned that it was their business to send every man who was not absolutely and without reservation essential to his family. The other board took the easy road; sent only those who did not ask for exemption or had no one at court to plead for them. To draw our comparison to a smaller angle; the one sent all they could under the law and the other kept all at home they could.

Time heals old sores and it also will bring about a correction of the few inequalities under the draft law. Already we see the War Department demanding that certain local boards reclassify many of the registrants and now they are beginning to see that it would have simplified matters a great deal had they carried out the draft rulings as other war rulings are to be carried out.

It is gratifying to note that our local board has very little reclassification work on hand What few there were are the natural result of changing conditions. On the other hand we see draft boards all over the state who must go through their entire files in order to make up for their dereliction of duty. An exchange received this morning says of one board, "For the reason that this large amount of work is before the board, the members have not yet been able to determine just which of the seventy-five men will be taken to make up the next contingent to leave for camp."

## GOSSIPING

"Thou shalt not go up and down as a talebearer among thy people." Leviticus 19:16 is a command which is not emphasized as much as perhaps it should be; everywhere we have the talebearers doing their deadly mischief, in school and church and home and society and political circles. There are three types of talebearers; there is the one who violates the command: "Thou shalt not bear false witness against thy neighbor"; the tale bearer who tells that which is absolutely false. Such a one after he is well known in a community, after he is well known to be a prevaricator, does not accomplish so much harm as when he works among those who do not know him. The second type is the one who "stretches" things. There is enough truth in what he tells to give it the appearance of being all truth; he simply gives it his own coloring and trimming to suit his purpose. Then there is the person who repeats things just as he heard them—every detail without addition or substraction—the person who just naturally "leaks".—(Christian Advocate.)

## SHORT FINES DUBOIS GROCER FOR ILLEGAL FLOUR SALES

Joe Vitorela, a DuBois grocer, was found guilty of selling flour illegally and without substitutes at a hearing before County Food Administrator John Short here yesterday and was fined to make certain contributions to the American Red Cross and prohibited from selling flour or substitutes for a period of thirty days.

Mr. Short admitted that he had had a DuBois grocer before him "recently" but would not make public the name of the grocer, time of the hearing nor the details of the penalty, other than that he had been sentenced to pay a certain amount to the Red Cross and refrain from cereal sales for thirty days. The other details are learned from other sources considered authoritative.

Joe Veterelli conducts a store near the corner of Brady street and Dixon avenue in Sandy township just outside of DuBois, and is said to have peddled his wares in surrounding centers.

## THIS "GREASER" WILL FIGHT

With the American Army at the Marne, July 10—Jimmy, the U. S. Marine's Mexican ant-eater mascot has been through the recent Marne drive on the Marne and is back in the Marne billet, unscathed.

When the "Devil Dogs" began the march toward the German lines, Jimmy fell right in line. All the coaxing, threatening and pleading that the pick of the regiment could do was of no avail. Jimmy's comrades were going into trouble, well then, so was Jimmy.

While the hand-to-hand conflict raged between the Marines and the Huns, Jimmy was here, there, everywhere, scurrying back and forth his eyes pleading to be allowed to aid.

After the battle, the Marines, realizing that they would never be able to keep Jimmy out of any more engagements immediately fashioned a miniature gas mask and shrapnel helmet with which the mascot will be armed the next time he goes forth into the fray.

The Cleveland Indians appear to be in good position to star something, should the Red Sox or Yankees hesitate in the American league pennant struggle.

## THEY ALSO SERVE WHO ONLY STAND AND SALUTE

(By United Press.)

Washington, July 10.—It may be quite an event in the young life of a private to be assigned to guard duty around the White House.

But it has its disadvantages.

There's this saluting thing.

When an officer passes a soldier on guard, the private must stop in his tracks, face his superior, and bring his rifle to "present arms."

Of course that isn't hard work—just now and then.

But when officers from the neighboring war department pass almost in a steady stream, it keeps said private busy saluting.

So, guarding the President may be some honor, but it's also some work.

## AD MEN HEAR FROM BIG BUSINESS MEN

(By United Press)

San Francisco, July 10.—The Association Advertising Clubs of the World, in convention here, got down to their own business today after spending most of two days on the nation's business.

Big business executives representing most of the larger industries and localities of the United States were before the convention today with their ideas.

Among the events today were addresses by these men:

Gerrit Fort of the railway administration.

Merle Sidener, chairman of the national vigilance committee of the Associated Advertising Clubs of the World.

George W. Hopkins, Columbia Graphaphone Co.

William H. Ingersoll Ingersoll Watch Co.

E. C. Tibbitts B. F. Goodrich Rubber Co.

Truman A. De Weese Shredded Wheat Co.

Rev. Mark Allison Matthews pastor First Presbyterian church Seatle.

Charles F. Berg, Portland, Ore., Ad Club.

Interest in the race for next year's convention was much keener today. A committee, appointed last night, canvassed the situation before deciding between New Orleans, New York and St. Paul, the principal contenders.

The school board of Beverly Mass., has adopted a rule allowing the employment of married women as teachers, where the husband is in the Nations service.

# NEWS OF OUR NEIGHBORS

## CURWENSVILLE

Arthur Temple, who joined the U. S. Marine service early this spring, is home for a short furlough. He is serving his second enlistment.

People who have gardens to keep up are wondering why it is that so many dogs are allowed to roam at large without having tags and collars attached to their necks.

A number of Curwensville families who are interested in Bungalow life are preparing to move to the country next week, and will remain for several months studying modes and tense of rural life.

A party of strangers consisting of four automobiles coming from up river toward Curwensville yesterday afternoon met with a costly accident near the farm of Reuben Whitaker about two miles from town. One machine turned clear upside down, crushing the top completely and breaking other parts of the vehicle. None of the occupants of the car were seriously injured.

F. L. Robinson and son, contracting painters, are very busy men at present. They have under contract some forty buildings to paint at the Bickford fire clay plant near Lumber City and also some houses in the town itself. Shortage of hired help is retarding the work somewhat but the contractors are hustlers and will get through with their contracts in good time. Both are expert mechanics in their line and the work will be well done.

Early history of Curwensville and local items that pertain to it seems to be in demand by Progress readers. The other day your representative was asked for a short sketch of the Bridgeport flour mill now operated by Mr. Hays. There is not much to it, but what there is the readers are welcome to it. In the year 1839 Mr. Joseph Spencer (now deceased) commenced building a grist mill at Bridgeport, about one mile west of Curwensville. It was situated on a good sized run a short distance from the main road and emptying into Anderson creek. Having in that year erected the building—which was a substantial one for those times—and performed much of the labor preparatory thereto; it commenced grinding grists in April 1840, with a man named John Jordan as miller. It being a time in our history that wheat was often polluted with "smut," in the winter of 1841 Mr. Spencer found it necessary to place a smut machine in operation to separate the smut and other impurities from the grain; it made such an improvement on the flour product that the mill became very popular and farmers from miles around brought their grain to this mill to have it ground. This was the first smut machine put in operation in the county. Farmers from Centre, Jefferson and Indiana counties brot grain to have flour made by this new process. John Jordan milled 6 years; John Fisher, 8; Jessee Broomall, 9; Henry Hockman, 7; B. B. Way and E. W. Kester each 7; Jas. B. Chambers, 8, all of whom gave evidence that they were not mistaken in their calling. On January 1, 1850, Joseph M. Spencer (father of Vincent) became possessor of the grist mill, purchasing the same from his father and continued to operate it for some years. In 1875 the old mill was removed and a new and larger one built. In 1882 the structure was equipped with steam power, for use when the water failed. This is about the sum and substance of the history of the Bridgeport grist mill.

## SURVEYOR

Our little town was very quiet over the Fourth most of our people enjoyed to some relative or friend.

Many of our town folks were at Woodland on the Fourth and took in the parade.

Rev. Maines preached in the Union church last evening. A splendid crowd was present.

W. A. Aughenbaugh was called away on Saturday evening on account of the illness of his father.

Francis Bottorf and family spent the Fourth in Wallaceton visiting with friends and relatives.

Lyle Coon and family motored to Penns Cave on July 4 and report an excelent trip.

A large flag was raised here last week and another one is to be raised by the Vulcan Trading copany store as soon as the pole is put in position.

We have noticed some letters in the Progress from our boys who have gone from among us to serve Uncle Sam, especially from John Langford. We are glad to note how well they are taken care of.

Mrs. J. L. Sheeler has returned to her home after a visit to her parents.

### HOW COULD THEY FIGHT WITHOUT "THE SCORE"?

(By United Press)

London, July 10.—Baseball scores and the latest news from the states are being supplied to American soldiers and sailors in every corner of England and Scotland by United Press bulletins through the Y. M. C. A.

One of the most interesting features of life in the U. S. for many Americans has been the lack of news. That is news. The American boys have complained that while they were have no idea of the war of the home in arms. The want is supplied nightly by a daily telegraphic account of the service, baseball and other happenings.

# KUEHLMANN'S RESIGNATION WILL NOT ALTER COURSE OF HUN MILITARISM

## SUCCESSOR LIKELY TO BE ONE WHO STANDS EVEN CLOSER TO AIMS OF THE MILITARISTIC GROUP

## ARMY MORALE NEEDS STRENGTH

**Copenhagen, July 10.—The resignation of Foreign Minister Kuehlmann has been accepted, according to official announcement from Berlin received here today. Other dispatches said that Admiral von Hintze, German minister to Norway, would probably succeed Kuehlmann.**

**By Ed. L. Keen**

**London, July 10.—The resignation of Foreign Minister Kuehlmann, if finally confirmed, is interpreted as a pan-German victory. This view is strengthened by the report that Admiral von Hintze will succeed Kuehlmann as he is not only close to the Kaiser but is friend and supporter of von Tirpitz and Admiral Scroeder, leaders of the Belgian annexationists. It may be considered a pan-German victory but he will not be quite so dangerous for the Allies as one of the Kuehlmann type, who was master of German plans of conquest under the trickery of a peace offensive which gave Allied pacifists debating material.**

**London newspapers dwelt at length on von Hintze's history. He is generally characterized as the most notorious personage of intrigue in the German diplomatic service. Hintze's history in China brought him international notoriety. His behavior there was so scandalous that he was recalled and sent to Mexico. He was German minister in the latter country during Huerta's regime. He was implicated in the plot to furnish Huerta with German guns and ammunition during the United States embargo. When war broke out von Hintze returned to Germany disguised as an Englishman, traveling through the United States, England and Holland. He was again sent to China as minister in 1915. After China broke off relations with Germany Hintze was sent to Christiana where he was implicated in the plot there last summer to smuggle bombs to America to blow up Allied merchantmen.**

**By Wm. Phillip Simms**

# PERSHING LOOKS FOR DRIVE ON THE AMERICAN FRONT IN THE NEAR FUTURE

**Washington, July 10.—"Excesive troop movements" continue in the enemy's area before American positions in France, General Pershing reported in his communique of July 9, just received. # UNDERSTANDING OF RESPONSIBILITY WILL SELL W.S.S.

The War Savings Stamp campaign in Clearefild borough is being conducted by a number of sub-committees working under a general committee. By this means the drive is trying to get hold of every possible avenue of approach to Clearfield citizens—to get in touch with absoultely everyone. It is felt that really the only thing necessary to make people buy stamps is that they should be made to appreciate the situation both at home and abroad.

One committee under G. M. Rosser has charge of the formation of war-savings societies, some account of which was recently given in these columns.

Another branch under S. F. McClure and A. D. Bigler is organizing systematic soliciting in the industrial plants and mines. The Harbison-Waler Refractories company represented by Mr. McClure, has been notably successful in this work at its various plants both here and elsewhere, and the subscriptions obtained by the local plants of this one concern have been a material help to Clearfield in bringing up its total. Many of the other works however, are now swinging raipdly into line on this drive and may yet force the Harbison-Walker people to hustle to hold first place by the end of the year.

Among others that have reported during the last few days are the Banta Refrigerator Works and the Paterson Clay Products mines. In the former pledges amounting to sixteen hundred and ninety dollars were made, a very fine showing. In the latter eleven men came across with a total of a thousand dollars to help fix up the map of Germany.

Clearfield still has a long way to go to reach her quota, but, as reports like these come in, the goal gets nearer. When we think of our quota and the long advance until we reach it we know that we must plunge into the work. We are getting ahead, however. If everyone comes through like the concerns mentioned above, we shall have enough and to spare.

The game figat which the New York Yankees have been putting up is an excelent testimonial to the abilities of Manager Miller Huggins.

### HAGERTY MADE ADDRESS AT BLOOMINGTON

The Liberty Chorus escorted Wm A. Hagerty to Bloomington last evening where he gave one of his characteristic short, snappy patriotic addresses [illegible] the Lutheran church at that [illegible]. A small but attentive audience [illegible]d the visitors to the little village and a nice subscription to War Savings Stamps was taven. The Motor corps of the division of Four Minute Men were right on the job at seven oclock sharp and the start was made on time. The chorus led by these patriotic men who freely and willingly donate the use of their cars, are making a big hit every place they go. The willingness of these men to forego their evening rest and pleasure to go out of town to entertain and help in the promotion of the war spirit is bring us plenty of praise.

# CONVENTION OF FIREMEN WILL BE SHORTER

## War Conditions Prompt Executive Commiitee to Cut Convention to 1 or 2 Days

## J. D. CONNELLY NEW SECRETARY

A meeting of the Executive Committee of the Central District Volunteer Firemen's Association was held at Firemans Hall in Houtzdale Tuesday afternoon. Those present were: President A. C. Allison and Amos Rumberger, of Houtzdale; J. F. Kephart, Philipsburg; Arthur W. Baird, Osceola; John E. Johnson, DuBois; C. H. Hoover, Bellwood; Robert Simcox, Patton, and J. C. Barclay, Clearfield, the entire membership of the Executive Committee. In addition thereto there were present:—John Kinney and Fred Sherkle, of Houtzdale, of Transportation Committee; Hon. Jos. E. Phillips and J. D. Connelly, of Clearfield, of the Resolutions Committee, and Messrs. J. A. Arnold and William Lewis of the local Committee.

The first business of the meeting was the election of a temporary successor to the late Secretary W. C. Langsford, of Houtzdale. J. D. Connelly, of Clearfield, was chosen for this position.

The purpose of the meeting was the selection of the date for the 1918 convention for the district. This matter was discussed at length and it was finally decided to select Thursday, August 22d, the convention and parade to be held the same day, eliminating the contests and other athletic features on account of war times and conditions.

The option was also given the local committee to add one day to the date if they so desire, and hold the convention or business session the first day and the parade the second as has been customary. This matter will be decided at once and the different organizations in the district notified.

The committee on resolutions presented the following report:

Resolution on death of W. C. Langsford of Houtzdale, Pa. Late Secretary of Central Pennsylvania District Volunteer Firemen's Association. Adopted by the Executive Committee at Houtzdale, Pa., July 9th, 1918.

Whereas, on June 15th, 1918 at 9.30 a. m., the death angel once again invaded the ranks of the Central Pennsylvania District Volunteer Firemen's Association and took therefrom one of its oldest, most enthusiastic, best-known, and most generaly respected members, the late William Charles Langsford, of Houtzdale; and

Whereas, Brother Langsford was long a valiant volunteer fireman and one of the moving spirits in the organization of our District Association and was among the very earliest Presidents of the organization, while he had been regularly and unanimously chosen annually for many years to fill the exacting position of Secretary of the Association. Much of the success of our organization has been due in large measure to his untiring zeal, wise counsel, absolute fairness and hard labors during the passing years. His death, therefore, was not alone a serious blow to our Association but is also a distinct personal loss to each and every member thereof, who admired our amiable, enthusiastic Secretary for his sterling worth as a gentleman, a fireman and a loyal friend.

Therefore, Be It Resolved: That we, the members of the Executive Committee of the Central Pennsylvania District Volunteer Firemen's Association, as a testimonial of the respect and esteem in which we held our departed Brother, direct that the Charter of our Association be draped for a period of thirty days, that this resolution be placed upon our minutes, given to the press for publication, and a copy presented to the family of our deceased Brother.

Further, that we ask the President of the District Association to designate a suitable person or Commitee to prepare a proper memorial and present same at the next meeting of the District Association in August of this year.

J. D. CONNELLY,
F. W. GREBE,
JOS. E. PHILLIPS,
Committe on Resolutions.

The resolutions were unanimously adopted and President Allison appointed John C. Barclay, Hon. Joseph E. Phillips and J. D. Connelly, of Clearfield, a committee to prepare a suitable memorial for report at the District Convention.

# WHEATLESS DAYS WILL SOON BE DISCONTINUED

## Supply of Beef and Wheat for Coming Year Will Result In Modifications of Rules

## VICTORY BREAD WILL STAY

Washington, July 8.—Relief for the United States from wheatless days is near. Relaxation of the voluntary wheatless programme of the Food Administration can be expected within the next two weeks.

The country probably will be asked to accept victory bread as its staple bread base, or a mixture of 80 per cent wheat flour and 20 per cent substitute. Our allies in Europe will continue using a mixed bread and it is the plan to keep the entire allied world on a similar basis, so far as may be possible. But the wheatless days will go.

The same conditions which cause the abandonment of the wheatless days have led the President to decide to veto the bill fixing the price of wheat at $2.40 a bushel at primary markets. The bill only reached the White House today and will be allowed to take its normal course through the Agricultural Department. The veto may reach Congress this week.

The beef needed for the armies at the front is from cattle garded as heavy exports. This is the same class of beef as is sold in hotels and nigh class restaurants. For this reason the hotels and restaurants were put on a conservation basis. On August 1 heavy cattle began coming into the market, and the supply promised at that time is adequate to the needs of the allied armies and the country. The restrictions on the use of beef will be removed.

The wheat crop this year is estimated at 900,000,000 bushels. It will meet the needs of this country and in addition will carry the allied nations until next April 1, possibly through 1919.

Guarantee of a price by the Government was for the purpose of stimulating wheat prodution this year. Both the Food Administration and the Secretary of Agriculture have pointed out to the President that any higher price fixed now, with the crop already made, could not possibly increase the production a single bushel.

The only excuse for price-fixing in the first place was to guarantee the farmer a sufficient return to encourage him to plant a larger acreage. The original guarantee was at $2 and brought an increase of 28.2 per cent. in the acreage.

# U-BOAT ATTACKED LINER NEAR NORFOLK MONDAY

By United Press

**New York, July 10—German submarine activities have been resumed off the United States coast. An Atlantic liner here from Chile with 85 passengers and a cargo of 3500 pounds of nitro was attacked by a U-boat off Cape Henry Monday night. Two torpedoes were fired at the steamer but both missed by narrow margins. The attack took place 50 miles off the coast. Passengers said the submarine had probably been notified of the coming of the steamer with its valuable cargo and lay in wait for it. The first torpedo swished the side of the steamer. Immediately after an alarm was given and the passengers hurried to the deck when the second torpedo passed along side the steamer's bow. The liner followed a zig zag course the rest of the voyage.**

### AIR RAID ON CONSTANTINOPLE

# "MOLDY" WINGERT SAW THE SAWS; AND OFFICER CARLSON SAW "MOLDY"

We have heard of deep, designing, desperate vilyuns sawing their way through prison bars to liberty but we believe our old friend "Moldy" Wingert is about to acquire for himself the fame of being the first man in the history of Clearfield county to literally "saw" himself into jail.

Friday night last burglars gained entrance to Dufton's hardware store on Market street and very quickly helped themselves to a generous supply of hardware. The police department was notified and immediately got busy. Suspicion was directed toward "Moldy" and a boon companion or two and it was not long before tangible evidence came to hand which showed the officers they were on the right track.

Last evening Jack Heberling informed Officer Carlson that "Moldy" Wingert had offered to sell him six bran new cross cut saws for $5.00. The officer told Heberling to go ahead and make the deal and the latter saw the saw merchant and asked to see the saws. When "Moldy" saw that Heberling meant business and really wanted to see the saws he saw to it at once that the saws should be seen.

He had left the saws at Joe Marino's store in the Fourth ward and taking Heberling with him started down to see the saws. Officer Carlson trailed the saw merchant at a safe distance and waiting until "Moldy" and his prospective customer were seeing the saws Carlson stepped in and had a look on his own hook.

When Moldy saw the officer and saw he saw the saws he also saw that it was the calaboose for his'n, and commencing to saw the air with his hands he declared to goodness he never saw the saws until he saw a fellow coming out of the hardware store friday night with the saws on his back and he saw that there was a chance to get away with the saws before any person saw him and never dreaing there aws anything wrong with the proposition he saw a chance to dispose of the saws to his own personal gain and that was the tale of the saws.

Officer Carlson saw Moldy on a recent occasion offer a similar excuse when he saw he was caught with the goods at the time of his securing a quantity of "hardware" down at the Elk rooms, but could not see enough in his explaantion to prevent his being locked up and then promptly saw that the saw merchant and his saws saw the inside of the borough caliboose. He also saw a good chance fos Moldy sawing his way into the county jail and from thence to the rock pile at Rockview, Centre county, Pa.

## DOING A JOB RIGHT

Many people do not understand or are inclined to forget that very little latitude or license is given to draft boards by which they can arbitrarily move a man forward into a classification which is unfair to him. The draft law has been framed in such a manner that every man has the right of appeal from the decision of the local board and for this reason there is about as much chance for a man not getting justice as there is for a camel to go through the eye of a needle. While the law has made it hard for a draft board to put a real class A2 or A4 man in Class 1, apparently it has made it relatively just as easy for a local board to let the bars down and put A1 and and A2 men in Class A4.

On review of many such classifications we have come to the opinion that the compliance or non-compliance with the rulings of the War Department depends entirely on two factors influencing the members of draft boards. One is, or rather was, a lack of conception of the broad terms of the draft whereby every man was to share equal and a failure to comprehend the fact that millions of men would ultimately be called into service, which in itself calls for the early induction of every man falling under the rulings. Another factor was the attitude described best by the old term "spineless" on the part of certain boards, the members of which early in the game began to seek the loopholes in order that no man would go unless the law positively said he must go. The flimsiest excuses were offered and accepted by these boards who were reluctant to do their full duty to their country. The patriotic board reasoned that it was their business to send every man who was not absolutely and without reservation essential to his family. The other board took the easy road; sent only those who did not ask for exemption or had no one at court to plead for them. To draw our comparison to a smaller angle; the one sent all they could under the law and the other kept all at home they could.

Time heals old sores and it also will bring about a correction of the few inequalities under the draft law. Already we see the War Department demanding that certain local boards reclassify many of the registrants and now they are beginning to see that it would have simplified matters a great deal had they carried out the draft rulings as other war rulings are to be carried out.

It is gratifying to note that our local board has very little reclassification work on hand. What few there were are the natural result of changing conditions. On the other hand we see draft boards all over the state who must go through their entire files in order to make up for their dereliction of duty. An exchange received this morning says of one board, "For the reason that this large amount of work is before the board, the members have not yet been able to determine just which of the seventy-five men will be taken to make up the next contingent to leave for camp."

## GOSSIPING

"Thou shalt not go up and down as a talebearer among thy people." Leviticus 19:16 is a command which is not emphasized as much as perhaps it should be; everywhere we have the talebearers doing their deadly mischief, in school and church and home and society and political circles. There are three types of talebearers; there is the one who violates the command: "Thou shalt not bear false witness against thy neighbor"; the tale bearer who tells that which is absolutely false. Such a one after he is well known in a community, after he is well known to be a prevaricator, does not accomplish so much harm as when he works among those who do not know him. The secnd type is the one who "stretches" things. There is enough truth in what he tells to give it the appearance of being all truth; he simply gives it his own coloring and trimming to suit his purpose. Then there is the person who repeats things just as he heard them—every detail without addition or substraction—the person who just naturally "leaks".—(Christian Advocate.)

## SHORT FINES DUBOIS GROCER FOR ILLEGAL FLOUR SALES

Joe Viterela, a DuBois grocer, was found guilty of selling flour illegally and without substitutes at a hearing before County Food Administrator John Short here yesterday and was fined to make certain contributions to the American Red Cross and prohibited from selling flour or substitutes for a period of thirty days.

Mr. Short admitted that he had had a DuBois grocer before him "recently" but would not make public the name of the grocer, time of the hearing nor the details of the penalty, other than that he had been sentenced to pay a certain amount to the Red Cross and refrain from cereal sales for thirty days. The other details are learned from other sources considered authoritative.

Joe Veterelli conducts a store near the corner of Brady street and Dixon avenue in Sandy township just outside of DuBois, and is said to have peddled his wares in surrounding centers.

## THIS "GREASER" WILL FIGHT

With the American Army at the Marne, July 10—Jimmy, the U. S. Marine's Mexican ant-eater mascot, has been through the recent Marine drive on the Marne and is back in the Marine billet, unscathed.

When the "Devil Dogs" began the march toward the German lines, Jimmy fell right in line. All the coaxing, threatening and pleading that the pick of the regiment could do was of no avail. Jimmy's comrades were going into trouble, well then, so was Jimmy.

While the hand-to-hand conflict raged between the Marines and the Huns, Jimmy was here, there, everywhere, scurrying back and forth his eyes pleading to be allowed to aid.

After the battle, the Marines, realizing that they would never be able to keep Jimmy out of any more engagements immediately fashioned a miniature gas mask and shrapnel helmet with which the mascot will be armed the next time he goes forth into the fray.

The Cleveland Indians appear to be in good position to star something, should the Red Sox or Yankees hesitate in the American league pennant struggle.

## THEY ALSO SERVE WHO ONLY STAND AND SALUTE

(By United Press.)

Washington, July 10.—It may be quite an event in the young life of a private to be assigned to guard duty around the White House.

But it has its disadvantages.

There's this saluting thing.

When an officer passes a soldier on guard, the private must stop in his tracks, face his superior, and bring his rifle to "present arms."

Of course that isn't hard work—just now and then.

But when officers from the neighboring war department pass almost in a steady stream, it keeps said private busy saluting.

So, guarding the President may be some honor, but it's also some work.

## AD MEN HEAR FROM BIG BUSINESS MEN

(By United Press)

San Francisco, July 10.—The Association Advertising Clubs of the World, in convention here, got down to their own business today after spending most of two days on the nation's business.

Big business executives representing most of the larger industries and localities of the United States were before the convention today with their ideas.

Among the events today were addresses by these men:

Gerrit Fort of the railway administration.

Merle Sidener, chairman of the national vigilance committee of the Associated Advertising Clubs of the World.

George W. Hopkins, Columbia Graphaphone Co.

William H. Ingersoll Ingersoll Watch Co.

E. C. Tibbitts B. F. Goodrich Rubber Co.

Truman A. De Weese Shredded Wheat Co.

Rev. Mark Allison Matthews pastor First Presbyterian church Seatle.

Charles F. Berg, Portland, Ore., Ad Club.

Interest in the race for next year's convention was much keener today. A committee, appointed last night, canvassed the situation before deciding between New Orleans, New York and St. Paul, the principal contenders.

The school board of Beverly Mass., has adopted a rule allowing the employment of married women as teachers, where the husband is in the Nations service.

# NEWS OF OUR NEIGHBORS

## CURWENSVILLE

Arthur Temple, who joined the U. S. Marine service early this spring, is home for a short furlough. He is serving his second enlistment.

People who have gardens to keep up are wondering why it is that so many dogs are allowed to roam at large without having tags and collars attached to their necks.

A number of Curwensville families who are interested in Bungalow life are preparing to move to the country next week, and will remain for several months studying modes and tense of rural life.

A party of strangers consisting of four automobiles coming from up river toward Curwensville yesterday afternoon met with a costly accident near the farm of Reuben Whitaker about two miles from town. One machine turned clear upside down, crushing the top completely and breaking other parts of the vehicle. None of the occupants of the car were seriously injured.

F. L. Robinson and son, contracting painters, are very busy men at present. They have under contract some forty buildings to paint at the Bickford fire clay plant near Lumber City and also some houses in the town itself. Shortage of hired help is retarding the work somewhat but the contractors are hustlers and will get through with their contracts in good time. Both are expert mechanics in their line and the work will be well done.

Early history of Curwensville and local items that pertain to it seems to be in demand by Progress readers. The other day your representative was asked for a short sketch of the Bridgeport flour mill now operated by Mr. Hays. There is not much to it, but what there is the readers are welcome to it. In the year 1839 Mr. Joseph Spencer (now deceased) commenced building a grist mill at Bridgeport, about one mile west of Curwensville. It was situated on a good sized run a short distance from the main road and emptying into Anderson creek. Having in that year erected the building—which was a substantial one for those times—and performed much of the labor preparatory thereto; it commenced grinding grists in April 1840, with a man named John Jordan as miller. It being a time in our history that wheat was often polluted with "smut," in the winter of 1841 Mr. Spencer found it necessary to place a smut machine in operation to separate the smut and other impurities from the grain; it made such an improvement on the flour product that the mill became very popular and farmers from miles around brought their grain to this mill to have it ground. This was the first smut machine put in operation in the county. Farmers from Centre, Jefferson and Indiana counties brot grain to have flour made by this new process. John Jordan milled 6 years; John Fisher, 8; Jessee Broomall, 9; Henry Hockman, 7; B. B. Way and E. W. Kester each 7; Jas. B. Chambers, 8, all of whom gave evidence that they were not mistaken in their calling. On January 1, 1850, Joseph M. Spencer (father of Vincent) became possessor of the grist mill, purchasing the same from his father and continued to operate it for some years. In 1875 the old mill was removed and a new and larger one built. In 1882 the structure was equipped with steam power, for use when the water failed. This is about the sum and substance of the history of the Bridgeport grist mill.

## SURVEYOR

Our little town was very quiet over the Fourth most of our people enjoyed to some relative or friend.

Many of our town folks were at Woodland on the Fourth and took in the parade.

Rev. Maines preached in the Union church last evening. A splendid crowd was present.

W. A. Aughenbaugh was called away on Saturday evening on account of the illness of his father.

Francis Bettorf and family spent the Fourth in Wallaceton visiting with friends and relatives.

Lyle Coon and family motored to Penns Cave on July 4 and report an excelent trip.

A large flag was raised here last week and another one is to be raised by the Vulcan Trading copany store as soon as the pole is put in position.

We have noticed some letters in the Progress from our boys who have gone from among us to serve Uncle Sam, especially from John Langford. We are glad to note how well they are taken care of.

### HOW COULD THEY FIGHT WITHOUT "THE SCORE"?

(By United Press)

London, July 10.—Baseball scores and the latest news from the states are being supplied to American soldiers and sailors in every corner of England and Scotland by United Press bulletins through the Y. M. C. A.

One of the most interesting features of life in the U. S. for many Americans has been the lack of news. That is news. The American boys have complained that while they have no idea of the war's progress in France. The want is supplied nightly by a daily telegraphic account of the game, fresh and up to the hour, without cost.
